4 SEP 1986

MEMORANDUM FOR: Deputy Director of Information Technology
for Management

FROM: [REDACTED]
Information Systems Security Division, OS

SUBJECT: Letter of Appreciation [REDACTED]

1. The Information Systems Security Division would like to formally express its appreciation for your participation in the evening roundtable discussion at its recent computer security forum. Of particular interest to the conference attendees was an insight from the senior officers representing the Offices of Information Technology, Security and Communications and their views on the Agency's computer security program. It was evident from the roundtable discussions that the three offices share a lot of the same concerns and must work closely together to support the Agency's computer security mission. [REDACTED]

2. Thank you again for your important contributions to the success of this conference. [REDACTED]
